

RHODESIAN FLAG INVENTORY

Vexillology is the study of flags and vexillologists are concerned, inter alia, with the preservation of collections of vexillological interest. Rhodesian flags, along with other Rhodesian memorabilia, are widely dispersed. In order to try and understand where these flags are we established an inventory of Rhodesian flags. The purpose is to record and build a comprehensive data-base of Rhodesian flags so that as time passes these items do not 'disappear', get lost or destroyed etc. Preparing such an inventory is beyond the capability of any one individual and hence, we are requesting anyone with flags in their possession to please provide the information as shown in the example below. This inventory will be available as a matter of record to anyone with a legitimate interest in vexillology and/or Rhodesiana.

Bruce and I are flag collectors and have comprehensive collections of Rhodesian flags, including possibly the only complete set of Rhodesian national flags in one collection.

Your co-operation is appreciated and any information which you may have regarding Rhodesian flags can be forwarded to us at rhodesiansworldwide@gmail.com or flagmanbruceza@gmail.com or by mail to P.O. Box 22034, Mesa, AZ 85277-2034, USA or P O Box 836, Pinegowrie, 2123, South Africa.

Thank you
BRUCE BERRY and CHRIS WHITEHEAD
